Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Application	Stage 2: Prediction	Stage 3: Result
Actions (What does the customer do?)	- Enters personal details - Fills application form	- Submits application - Waits for prediction	- Views approval/rejection - Decides next action
Touchpoints (What part of the service do they interact with?)	- Web application form - Input fields	- Flask backend - ML prediction model	- Result page - Predict Again option
Customer Thoughts (What is the customer thinking?)	"Am I eligible?" "Did I enter everything correctly?"	"How is my application evaluated?"	"Why was it approved/rejected?"
Customer Feelings (What is the customer feeling?)	- Hopeful - Curious	- Anxious - Excited	- Happy (if approved) - Disappointed (if rejected)
Process Ownership (Who is in the lead on this?)	Customer	ML System & Flask Application	- System displays result - Customer reviews outcome
Opportunities (How can we improve this stage?)	- Simplify the form - Add input validation	- Faster prediction - Progress indicator	- Explain prediction - Suggest improvements after rejection
